

Department:	Design & Technology	
Year 11 Course summary:		
<p>The Year 11 Design and Technology course focuses on the completion of the NEA design projects that the students start at the end of Year 10. Students also undertake Q&A revision activities in the lessons leading up to their November mock exam. Once the NEA is complete we summarise the course by completing sample papers in class and providing students with an opportunity to have specific exam content revisited.</p>
